- Proficient in Node js., python and C++, react js, PHP
- Full Stack development
- SDLC and its various stages, from requirements gathering to deployment, ensuring efficient and high-quality software development processes.
- Problem Solving and Analytical skills
- Project Management skills
- Workplace skills
- Strong communication skills and teamwork spirit

SUMMARY

As an entry-level software developer, I specialize in designing, coding, and maintaining software applications. With a strong foundation in programming languages like PHP, Python, and C++, I am adept at utilizing various development tools and frameworks. I am a logical thinker and creative problem-solver, and I enjoy tackling complex problems in the field while continuously expanding my experience and skills.

WORK EXPERIENCE

Frontend Developer 2024 - PRESENT

Dunta Shop, Cameroon(Remote)

- My responsibility is creating highly responsive websites and working on maintenance.

Web designer and developer Sep 2023 - Oct 2023

Oasis Infobyte, India

- I was working on designing and developing websites.

Projects

Ecommerce Project Sep 2023 ALX

As a full stack developer on the E-commerce project, I played a key role in designing and developing both the front-end and back-end of the platform. I implemented user-friendly interfaces, integrated payment gateways, and optimized the performance of the website.

ASTU Projects May 2021-present

- Developed Web based Library Management System using C++
- Developed advanced Scientific calculator using C++ and Algorithms and Data structures
- Worked on Software Requirements Specification for Student Cafe service management system as a team coordinator
- Worked on Software Requirements Specification for Automated gate counter System for ASTU Library Services

VOLUNTEER WORK

Public Relations Manager Nov 2023- Nov 2024
ASTU Space Science and Technology Club
